

# VOTE FOR EVERY CHILD

Elections 2023 – Luxembourg

Let's give children a voice in these elections. **For their future.**

**Not all children can develop their potential at school**

**Children and young people are very concerned about their mental health**

**Children and young people are increasingly exposed to violence**

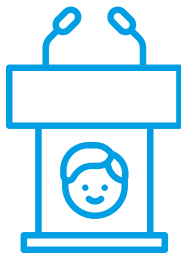

**More and more young people are afraid of climate change**

## The last years have not been easy.

But UNICEF Luxembourg is committed to a future where every child and young person has a right to:

**Well-being | Protection | Environment & climate protection**  
**Education | Participation | Equal opportunities**

## We call on our next government to take the following actions for every child...

-  **1.** Implement better coordination of child rights
-  **2.** Strengthen therapeutic and psychiatric services for children
-  **3.** Include the urgency of climate change in the school curriculum
-  **4.** Combat bullying at school more effectively
-  **5.** Tackle educational inequality
-  **6.** Fight against inequality and child poverty
-  **7.** Abolish the placement of migrant children in retention centres
-  **8.** Establish permanent participation mechanisms
-  **9.** Set aside a percentage of the amount allocated for "official development assistance" for children
